Daisy Chain

This tradition dates from the late 1880s, when second-year students decorated the Chapel for Class Day with daisies picked in nearby fields. The decorations later took the form of a floral rope. Today, the Daisy Chain leads the recessional of seniors to Main Circle, where it is displayed for the graduates and their guests.

ACADEMIC DRESS

The custom of wearing academic dress stems from the Middle Ages when scholars were also clerics and wore the costumes of their monastic orders. Significant parts of academic dress are the gown, the hood, and the cap. Each has a particular significance and is worn in accordance with standards established by the Academic Costume Code of the American Council on Education.

GOWNS

Gowns recommended for use in the colleges and universities of this country have the following characteristics. The gown for the *bachelor's degree* has pointed sleeves, and is designed to be worn closed. The gown for the *master's degree* has an oblong sleeve, open at the wrist. The sleeve base hangs down in the traditional manner. The rear part of its oblong shape is square cut, and the front part has an arc cut away. The gown is supplied with fasteners so that it may be worn open or closed. The gown for the *doctor's degree* has bell-shaped sleeves. It is supplied with fasteners so that it may be worn open or closed.

Material. Cotton poplin or similar material for

the bachelor's and master's degrees, and rayon or silk ribbed material for the *doctor's degree*.

Color. Black is recommended.

Trimmings. None for the bachelor's or master's degrees. For the *doctor's degree*, the gown is faced down the front with black velvet and three bars of black velvet are sewn across the sleeves. These facings and crossbars may be velvet of the color distinctive of the subject to which the degree pertains.

For all academic purposes, including trimmings of doctors' gowns, edging of hoods, and tassels of caps, the colors associated with the different subjects are as follows:

Agriculture	Maize
Arts, Letters, Humanities	White
Commerce, Accountancy, Business	Drab*
Dentistry	Lilac
Economics	Copper
Education	Light Blue
Engineering	Orange
Fine Arts, including Architecture	Brown
Forestry	Russet
Journalism	Crimson
Law	Purple
Library Science	Lemon
Medicine	Green
Music	Pink
Nursing	Apricot
Oratory (Speech)	Silver Gray
Pharmacy	Olive Green
Philosophy	Dark Blue
Physical Education	Sage Green
Public Administration, including	
Foreign Service	Peacock Blue
Public Health	Salmon Pink
Science	Golden Yellow
Social Work	Citron
Theology	Scarlet
Veterinary Science	Gray

*Sapphire blue as alternate. Not recommended because of the likely confusion with blues previously assigned to other subjects.

CAPS

Caps recommended for use in the colleges and universities of this country have the following characteristics.

Material. Cotton poplin, broadcloth, rayon, or silk, to match gown, or, for the doctor's degree only, velvet.

Color. Black.

Form. Mortarboards are generally recommended, although soft square-topped caps are permissible for women.

Tassel. A long tassel is fastened to the middle point of the top of the cap. Black or the color appropriate to the subject is worn, except that the doctor's cap may have its tassel of gold thread.

HOODS

Hoods recommended for use in the colleges and universities of this country have the following characteristics. The length of the hood worn for the bachelor's degree is three feet, for the master's degree, three and one-half feet, and for the doctor's degree, four feet. The hood worn for the doctor's degree shall have panels at the sides. Hoods are lined with the official color or colors of the college or university conferring the degree; more than one color is shown by division of the field color in a variety of ways, such as chevron or chevrons, equal division, etc.

Material. The same as that of the gown in all cases.

Color. Black in all cases.

Trimmings. The binding or edging of the hood is velvet or velveteen, two inches, three inches, and five inches in width for the bachelor's, master's, and doctor's degrees, respectively; while the color should be indicative of the subject to which the degree pertains. For example, the trimming for the degree of Master of Science in Agriculture should be maize, representing agriculture, rather than golden yellow, representing science. No academic hood should ever have its border divided to represent more than a single degree.

PERMISSIBLE EXCEPTIONS

1. Members of the governing body of a college or university are entitled to wear doctor's gowns (with black velvet), but their hoods may be only those of degrees actually held by the wearers or those especially prescribed for them by the institution.
2. In some colleges and universities, it is customary for the president, chancellor, or chief officer to wear a costume similar to that used by the head of a foreign university. This practice should be strictly limited.
3. The chief marshal may wear a specially designed costume approved by his or her institution.
4. It is customary in many large institutions for

the hood to be dispensed with by those receiving bachelor's degrees.

5. Persons who hold degrees from foreign universities may wear the entire appropriate academic costume, including cap, gown, and hood.
6. Members of religious orders and similar societies may suitably wear their customary habits. The same principle applies to persons wearing military uniforms or clad in special attire required by a civil office.
7. It is recommended that collegiate institutions that award degrees, diplomas, or certificates below the baccalaureate level use caps and gowns of a light color, e.g. light blue for teacher-training and light gray for other types of institutions.

LAND ACKNOWLEDGMENT

We acknowledge that Vassar stands upon the homelands of the Munsee Lenape, Indigenous peoples who have an enduring connection to this place despite being forcibly displaced by European colonization. Munsee Lenape peoples continue today as the Stockbridge-Munsee Community in Wisconsin, the Delaware Tribe and the Delaware Nation in Oklahoma, and the Munsee-Delaware Nation in Ontario. This acknowledgment, however, is insufficient without our reckoning with the reality that every member of the Vassar community since 1861 has benefited from these Native peoples' displacement, and it is hollow without our efforts to counter the effects of structures that have long enabled—and that still perpetuate—injustice against Indigenous Americans. To that end, we commit to build and sustain relationships with Native communities; to expand opportunities at Vassar for Native students, as well as Native faculty and other employees; and to collaborate with Native nations to know better the Indigenous peoples, past and present, who care for this land.
